

Present:

Ray Xia (Designer), Bella Pearce (Developer)

Project:

Hearthstone Wiki

Notes:

Content: page break created according to [wiki](#) sections. No complicated tables or data needed. Just be informal and welcoming to new players/non-players. Follow your interest to select content to include.

Style: follow general visual guidelines from Hearthstone's visual guide. No need to create vector art if something is not at disposal. Color is more important

Question: Next step? Should start looking for font and images
